Re: Response of the Selmer Company to CERCLA Section 104(e)
Supplemental Request for Information Regarding
1119 North Main Street Site, Elkhart, Indiana

Dear Mr. Geishecker:

Pursuant to your request for information dated January 26, 1990, attached is the response of North American Philips Corporation ("NAPC") on behalf of the Selmer Company, ("Selmer"), which NAPC sold in December, 1988. The attached response supplements the information NAPC previously provided to your office by letter dated December 5, 1988, to Susan Swales, from Mark A. Fury. The due date for the attached response was set at March 16, 1990, pursuant to my telephone conversation with Elizabeth Murphy of the Office of Regional Counsel on March 7, 1990.

NAPC and Selmer renew the objections raised in the December 5, 1988, letter and further object to the request for additional information as being vague, ambiguous, overbroad, and duplicative. Furthermore, nothing herein shall be construed as a factual or legal admission of any kind relating in any respect to the site.

If you require any further information, please do not hesitate to contact me at (212) 850-5232.

Very truly yours,

Risa H. Weinstock

RESPONSE OF THE SELMER COMPANY
TO CERCLA SECTION 104(e) SUPPLEMENTAL
REQUEST FOR INFORMATION REGARDING
1119 NORTH MAIN STREET SITE

1. The following former and/or present Selmer employees were responsible for disposal of waste at the Selmer facility located at 1119 North Main Street, (hereinafter referred to as the "site" or "facility"), from 1950 to the present:

<u>Name</u>	<u>Years of Employment</u>
Clarence Smith non-responsive	1/9/36 to 12/1/70
Norm Enos non-responsive	1969 to 1976
Richard Bement non-responsive	1971 to Present
Cliff Cartwright non-responsive	1973 to 1979
Steve Stoner non-responsive	1980 to 1985
Richard Delp non-responsive	1986 to 1988
Cecil Zimmerman non-responsive	1985 to Present
Richard Stackhouse non-responsive	1987 to 1988

<u>Name</u>	<u>Years of Employment</u>
Ed Ferguson non-responsive	1988 to 1990
Sumner Kauffman non-responsive	1947 to 1980

2. As stated in the December 5, 1988 Response to Question Number 10, there were no spills or leaks from the facility to our knowledge. Additionally, on December 6, 1982, Selmer responded to an information request from the Indiana Environmental Management Board regarding spills and the disposal of TCE at Selmer's facility. Selmer responded that it had no knowledge of any spills or improper disposal of TCE on its premises. A copy of this letter is attached at Exhibit 1.

Also, attached at Exhibit 2 are hazardous waste manifests for 1980-1985, documenting Selmer's disposal of TCE.

From 1985 through the present, Selmer produced approximately 15 gallons of waste or still bottoms per year.

3. Selmer has no knowledge or information regarding any dumping on or behind the railroad tracks at the facility. To the best of our knowledge, the railroad tracks that went through the facility parking lot were black topped over in 1955, approximately. The entire parking lot has been covered with black top since 1965.
4. The following persons were contacted in an effort to respond to this supplemental request for information:

Herb Kirts
600 Industrial Parkway
Elkhart, IN 46516

Cecil Zimmerman

EXHIBIT 1

December 6, 1982

Mr. Ralph C. Pickard
Technical Secretary
State of Indiana
Environmental Management Board
1330 West Michigan Street
P. O. Box 1964
Indianapolis, Indiana 46206

Dear Mr. Pickard:

Pursuant to your letter of November 17, 1982 regarding trichloroethylene (TCE) contamination of the City of Elkhart well field, we are enclosing the information you requested covering the use of TCE at Selmer's Main Street plant.

1. We do not know when the use of TCE was initiated at our facility, but it has been used at least since 1947. Selmer has operated this facility since 1927. Selmer retains purchase documents for a period of five (5) years and based on these documents annual purchases of TCE for the past five years and nine months are as follows:

1982 (through 9/30/82)	1484.5 gallons
1981	1728.6 gallons
1980	2130.1 gallons
1979	2691.4 gallons
1978	1805.0 gallons
1977	2113.9 gallons

2. We have no knowledge of the activities of prior manufacturers at or owners of the site.

Mr. Ralph C. Pickard

December 6, 1982

Page Two

3. TCE is used in a vapor degreaser for degreasing metal musical instrument parts. TCE is delivered by tank truck, pumped directly into an approved 300-gallon above-ground storage tank, which is located outside the building on a concrete pad. Piping from the tank carries the TCE directly into the degreaser. When the degreaser is cleaned, remaining TCE and sludge is drained into 55-gallon drums which are then stored inside the plant until sufficient quantities have accumulated for pickup. When they are picked up by our suppliers (1981 to present: ^{GOLD} ~~Zero~~ Shield Solvent, 2263 Distribution Drive, Indianapolis, Indiana 46241) (prior to 1981: Van Waters & Rogers, 59685 Market Street, South Bend, Indiana 46613) for distillation and recovery of solvent. In the past five years and nine months the following amounts of TCE have been returned to our suppliers for recycling:

1982 (through 9/30/82)	330 gallons
1981	660 gallons
1980	220 gallons
1979	715 gallons
1978	220 gallons
1977	935 gallons

Interviews with employees involved with the purchase, use and disposal of TCE indicate that it has always been the policy and practice of The Selmer Company to dispose of all used TCE by returning it to the supplier for recycling.

4. We have no knowledge or evidence that there has ever been any significant spill or disposal of TCE on site.

I hope that this information we have volunteered will aid the Board in identifying the party responsible for the contamination of the Elkhart well field and taking prompt action to remedy the problem.

Very truly yours,

H. William Petersen
President
